MIX MASTER - 30

## FEATURING

# MIX MASTER - 30

30 m<sup>3</sup>/h of vibrated concrete

- 750/500L Pan/Planetary Mixer
- Quick & easy installation - No crane
- Fully automated precise system
- Cost-effective transportation
- 2 or 4 aggregate bin configuration
- Optimized footprint - small space

## ELKON MIX MASTER-30 | ONSITE Concrete Batching Plant

Capacity: 30 m<sup>3</sup> /hour vibrated concrete / Total Install Power: 46 kW

| DETAILS                         |  | QTY |
|---------------------------------|--|-----|
| ✓                               | Aggregate Storage Bins (2x5=10 m <sup>3</sup> ) For 2 kinds of aggregates  | 1   |
| ✓                               | Aggregate Transfer Conveyor  | 2   |
| ✓                               | 750/500 l. Pan Mixer (Brand: ELKON)  | 1   |
| ✓                               | Cement Weigh Hopper (300 kg)   | 1   |
| ✓                               | Water Weigh Hopper (200 kg) (galvanized)   | 1   |
| ✓                               | Additive Weigh Hopper (1x25 l.) (galvanized)   | 1   |
| ✓                               | Water Pump (20m <sup>3</sup> /hour)  | 1   |
| ✓                               | Air Compressor   | 1   |
| ✓                               | Support Structure - Equipped with axle, tires and hook for easy transportation   | 1   |
| ✓                               | Galvanization and Paint Details  | 1   |
| ✓                               | Control- power panel and Electrical System ( <b>ABB or Siemens</b> )   | 1   |
| ✓                               | Bag Cement Feeding System with Cement Screw  | 1   |
| OPTIONAL EQUIPMENT UPON REQUEST |  | QTY |
| ✓                               | Remote Controller with 6 Buttons: 2 buttons for start-stop, 4 assignable buttons for different concrete recipes  | 1   |
| ✓                               | Adding 2x5=10 m <sup>3</sup> aggregate storage bins to increase total aggregate storage to 4x5= 20 m <sup>3</sup> (for using 4 different types of aggregates)  | 1   |
| ✓                               | Cement Screw (Ø165) (Brand: ELKON)   | 1   |
| ✓                               | Cement Silo (50 tons) (Bolted Panel Construction) (Brand: ELKON)   | 1   |
| ✓                               | Cement Silo Reverse Jet Type Filter (Brand: WAM)   | 1   |
| ✓                               | Cement Silo Accessories: Including max-min. level indicators, fluidizing system, pressure safety valve, max-min. level indicator panel with alarm system   | 1   |
| ✓                               | Horizontal Cement Silo (40 Tons)<br>- Capacity: 27,8 m <sup>3</sup><br>- Bottom Cement Screw: Ø220<br>- Cement Filter Brand: WAM<br>- Cement Silo Accessories<br>- Equipped with foldable manual lifting jacks | 1   |
